<https://www.github.com/pablosecuen/>

Full Stack Developer with experience in Front End and Back End development, combining technical skills with a solid background in executive management of marketing agencies. Knowledgeable in agile methodologies and with deep skills in team management, leadership and project management, I have worked in brand design, advertising campaigns, product development, user experience and business management.

My specialization in technologies such as JavaScript, Node.js, React, Redux, Css, Tailwind, Express, Postgres, Html, Insomnia, Sass, Bootstrap, Babel and Redux toolkit, as well as graphic design tools such as Illustrator, Photoshop and After Effects, allow me to successfully face the challenges of software development. In addition, my C2 PROFICIENT English level is a key tool to work in international teams and communicate effectively with clients and colleagues from all over the world.
